

## **Chapter 13**

### **Vocabulary pg. 565**

**Adenopathy**

**Antidiuretic**

**Cortex**

**Diabetes, gestational**

**Diabetes, insipidus**

**Diabetes, mellitus**

**Diabetic ketoacidosis**

**Dwarfism**

**Endocrine gland**

**Endocrinologist**

**Endocrinology**

**Epinephrine**

**Estrogen**

**Exocrine gland**

**Gigantism**

**Glucagon**

**Glucose**

**Goiter**

**Gonads**

**Hyperglycemia**

**Hyperthyroidism**

**Hypoglycemia**

**Hypothyroidism**

**Medulla**

**Metabolism**

**Polydipsia**

**Polyuria**  
**Progesterone**  
**Syndrome**

**Word elements pg. 572**

**Acr/o**  
**Aden/o**  
**Adren/o**  
**Adrenal/o**  
**Andr/o**  
**Cortic/o**  
**Crin/o**  
**-crine**  
**dips/o**  
**-dipsia**  
**gonad/o**  
**gluc/o**  
**lact/o**  
**oxy-**  
**pancreat/o**  
**somat/o**  
**thym/o**  
**thyr/o**  
**thyroid/o**  
**toxic/o**  
**-tropin**  
**-uria**

**Pathological conditions pg. 574**

**Addison's disease**  
**Pancreatitis**

**Fasting blood sugar (FBS)**  
**Thyroid scan**

**Common abbreviation pg. 589**

**BMR**

**Ca**

**DI**

**DM**

**FBS**

**FSH**

**GTT**

**K**

**Na**

**RAI**
