

Chapter 20 & 21

Procedures pg. 919

Angiocardiography

Angiography

Arteriography

Arthrography

Barium enema (BE)

Barium swallow

Bronchography

Cholangiography (intravenous)

Cholangiopancreatography

Cholecystography (oral)

Computed axial tomography (CT, CAT)

Voiding cystourethrography

Digital subtraction angiography (DSA)

Echocardiography

Fluoroscopy

Hysterosalpingography

Magnetic resonance imaging (MRI)

Mammography

Myelography

Positron emission tomography (PET) scan

Pyelography (intravenous) (IVP)

Radiation therapy

Radioactive iodine uptake

Scanning

Small bowel follow through

Tomography

Ultrasonography
Venography
x-rays

Vocabulary pg. 937

anteroposterior

axial

brachytherapy

digital radiography

gamma camera

ionization

nuclear medicine

posteroanterior

rad

radiographer

radioisotope

radiologist

radiolucent

radionuclide (radioisotope)

radiopaque

radiopharmaceutical

recumbent

roentgenology

single photon emission computed tomography

supine

transducer

Word elements pg. 942

angi/o

anter/o

arthr/o

arteri/o
bronch/o
cardi/o
fluor/o
radi/o
son/o
tel/e
tom/o

Common abbreviations pg. 944

AP
Ba
BE
CAT
C-spine
CT
CXR
ERCP
Fx
IVU
KUB
MRA
MRI
PA
PET
rad
SBS
UGI
u/s

Vocabulary pg. 960

Benign

Carcinoma

carcinoma in situ (CIS)

chemotherapy

invasive

malignant

oncologist

radiotherapy

remission

Common abbreviations pg. 982

ACS
