

PREPARE FOR WAR WEEK 3:

Assignment 1: Scripture would seem to indicate that none of the things we're called to do as warriors will be accomplished as a one-time deal. Rather, all the things we see in this assignment are continuous exercises. Forgiveness on a daily basis, seeking the spirit of wisdom and revelation (maybe on a minute-by-minute basis), creating a clean heart.

Assignment 2: Does the Spirit of God live in me? Have I received His Spirit? Fundamental questions that this whole course of study appears to be focused on. And then what? How will I be led by His Spirit? How will I be submitted to total obedience? There don't appear to be any "days off" in the Kingdom.

Assignment 3: Still saying all these out loud.

Assignment 4: Buried with Him through baptism, raised from the dead so that we too may live a new life... in order that we may bear new fruit to God.. released from the law so that we may serve in the new way of the Spirit. This sheds light on how important, how big the transformation was in my life when I received Christ and was baptized. This wasn't just a ritual of the church. This was a commitment for life that even now is showing more meaning and more calling in my life. Again, reminding me that "the former way of life" and the way I'm living now are two completely different things. There's no carry-over from the former way.
