List of Major Characters

List the major characters in *The Hound of the Baskervilles*. Do not include characters who appear briefly and who do not affect the story. Write down the name of the character and his/her relationship to other characters in the book (if any). Write down details about the character and what he or she does. Finally, write what you think motivates this character. What does he or she really want? Why does this character make the decisions that he or she does?

Write 4-5 sentences on each character. Use extra sheets of paper if you need them.
