

Dear Forensic Science Class,

Your assistance is needed to help our overworked fire investigators to analyze a string of structure fires in our district. These fires seem to be related and all have targeted old, wooden buildings in the area. Using your knowledge of forensic investigation, we would like you to assist our department in evaluating evidence and compiling facts to create a preliminary crime scene report that can be used to bring down this serial arsonist.

Please fill out the temporary CSI identification badge below to enter the crime scenes.

Your help is greatly appreciated.

Sincerely,

-Schilly

Officer Schilly - CSI
