

## Reason Prep's SAT Grammar Diagnostic Test

Version 1.1

This Diagnostic Test is designed to assess your ability on the GRAMMAR portion of the SAT Writing & Language section; these questions make up approximately half of the test. The other half of the test, comprising questions that test your ability to revise a passage to more clearly and effectively communicate ideas, is not covered in this Diagnostic.

The questions in this Diagnostic are not in the format you'll find them on the SAT. If you want to know your current score on the Writing & Language test, take an official practice exam. These questions, however, will test your knowledge of SAT grammar rules in a relatively straightforward way to determine which rules and grammar topics you are familiar with and which rules and topics you need to review.

Though you should use this test to analyze your weaknesses, don't ignore your strengths. Simply use this diagnostic as a starting point for your study plan.

**Directions:** Take the test untimed. Check your answers with the key located at the back of the packet. **VIDEO SOLUTIONS** for each problem are also available (see answer key).

At the end of this packet, you'll also find a listing of the grammar rules covered in these questions. Make sure to circle the problems you got wrong and identify the grammar rules you need to review.

**Circle or underline the error(s) in the sentence and suggest a correction. Some questions may have no error.**

1. ✓ Students who major in chemistry is able to get a good job after college.  
art
