

Chapter 3: Why Study Logic?

1. What is one practical advantage to thinking logically?
2. Give an example of a false statement that would lead to disaster if someone believed it?
3. Why do you think “thoughts” and “ways” are mentioned together in Scripture (pg. 17)? How do our thoughts affect our ways?
4. Give an example of a “lofty thing raised up against the knowledge of God” that is prevalent in the thinking of today’s culture.
5. Give a definition of quantitative and qualitative.
