

# Textbook Chapter 1

1. Given all the discussion of choice and making good choices in chapter 1, what do you think it does to people when all their choices are made for them?

---

---

2. Write an example (not given in the textbook) of the following types of goods:

Economic good/service: \_\_\_\_\_

Nuisance good/service: \_\_\_\_\_

Free good/service: \_\_\_\_\_

3. Give an example of a choice you have made this week that had a cost. What was the choice and the cost?

---

---

---

---

4. Think of something that has a high value to you today. In what situation would that same thing have no value to you?

---

---

5. What do economists do that scientists in other fields do?

---

---

---

---
