## Observation Skills

Directions: As you watch the video clip, answer the following questions.

1. List 3 things that you observe during the "crime."
2. A good witness is someone who is \_\_\_\_\_ in their thoughts.
3. How many people were involved in the crime?
4. What verbiage should be used by a detective when working with a victim to identify a suspect?
5. Which suspect in the line up was really the thief at the park?
6. What is *unconscious transference*?
7. What does this information tell you about the credibility of eyewitnesses?
8. Why did the psychologist have two crime scene witnesses give false information during questioning?
9. What are some ways that you think the witnesses could improve their memory?
10. How do you think your observation skills compare to the eyewitnesses from the video clip?
