

HOMEWORK: Come prepared to give a "Demonstration Speech."

1. Demonstrate a process to the class.
2. Tell what you are going to demonstrate, including the end results.
3. List all essentials, ingredients or equipment needed.
4. Demonstrate the entire process, step by step.
5. Emphasize points of interest and concern, such as common errors or helpful hints.
6. Show the results.
7. Review the materials and procedure to reinforce the process.
8. Remember to SHOW the process, don't just tell about it.
9. Be sure to maintain good eye contact throughout the speech.
10. The speech should be 4-5 minutes long.
11. Turn in a brief outline of your speech.

Be very familiar with your topic. If you need topic suggestions, I have some, but I bet you all have good ideas. Your demonstration will take place in our classroom or outside in the parking lot. Bring what you need for your demonstration. It does need to be school appropriate.
