

## **Scientist Report Requirements and How you will be graded**

You will give a brief presentation of your Scientist. Follow these instructions to receive an A+. It must be at least 5 minutes. You must include all items listed below. In addition, you must have an image of your Scientist and a visual aid that is associated with your Scientist. NO PowerPoint presentations/computers are allowed. You MAY NOT READ your presentation; however, you may have a few notecards with a brief outline to guide you during presentation. You must make eye contact with the audience. The following will be the CONTENT on which you are graded. If you lack one of the following, I will mark off points. (unless there was no information pertaining to the subject listed). You must give me this paper with the answers stapled to it along with your Rubric. Your Rubric must have your first/last name and Scientist listed on the TOP RIGHT.
