### Personal Choice Book Report - Little Women

Little Women is a novel written by Louisa May Alcott. It's about the lives of the four sisters Meg, Jo, Beth, and Amy. This story is telling about their lives as they face the challenges and joys of growing up in 19th-century New England.

Each the sisters has their own personality and dreams. Meg is the oldest and wants a traditional life, while Jo is a tomboy with a passion for writing. Beth is sweet and shy and finds comfort in music, and the youngest, Amy, is artistic and ambitious. They experience the highs and lows of their teenage years which include love, friendship, loss, and personal growth.

This story is relating to family, sisterhood, and pursuing goals. Alcott does a good job of telling about the sisters' close relationships and supporting each other.. The March sisters grow their knowledge about sacrifice, love, and the importance of staying loyal to who they are as an outcome of their experiences.

I thought this was a good book because it relates to a lot of teenagers because it tells about relationships and supporting others just like we have to deal with in our daily life. I related to Beth the most because she's shy like me but she finds comfort in music and I do too. Overall I

would recommend this book to others because its a classic and I think everyone should read this book at least once.
