### Prophetic Word during Dawn Patrol

This morning at Dawn Patrol, I prayed for one of the attendees concerning an issue between two siblings and for restoration of their relationship. After praying over that situation, God gave me a word, *forgiveness*, for the situation and instructed me to give that word to the person who requested the prayer. I waited and prayed that this was God's voice and after all prayer had concluded, I approached the person and told them what God gave to me. She thanked me and stated, "This was confirmation over what we had been praying. We were standing on Psalm 91 concerning this situation." I give all glory to Him for entrusting me to be obedient with the word He gave me and I look forward to serving more!
