Medication Administration Part II Demo

Date: 1/7/2023 12:30 - 1/7/2023 16:30

Grade: 98

This course is the second portion of a two-part course designed to teach Medication Administration to unlicensed staff. Participants complete a written test and demonstration of medication administration. The following were demonstrated by the participant: (1) Oral medication (tablet, capsule, lozenge) - bottle and bubble pack; (2) Oral liquid medication; (3) Eye medication (drop and ointment); (4) Ear drop medication; (5) Topical and transdermal medication; (6) Metered dose inhaler. This course is taught by STAR Services RNs. This training is not a certification of the participant's competency by STAR Services. Assurance of the participant's skills and competencies is the responsibility of the employing company. Companies are required to ensure the staff's competence to administer medications to the specific people they support prior to administering medications. This course, in conjunction with Medication Administration Part I online, meets 245D requirements for medication administration training.

Instructor: Tamyka Carr, RN

STAR Services is a training, education, staffing, consulting, and business development resource for social service agencies, individuals, families, social service professionals, schools, and government agencies. STAR Trainers have a combined experience of over 100 years of supporting individuals with various disabilities and mental health conditions in a variety of settings. Learn more at starsvcs.com.
