Medication Administration

Date: 12/14/2021 10:00 - 12/14/2021 16:30

Grade: 94%

This course provides employees with the skills needed to administer medication properly and safely; document and transcribe medical cares correctly in order to maintain an adequate, legal health record; and understand different categories and types of medications and their side effects. The following were demonstrated by the participant: (1) Oral medication (tablet, capsule, lozenge) - bottle and bubble pack; (2) Oral liquid medication; (3) Eye medication (drop and ointment); (4) Ear drop medication; (5) Topical and transdermal medication; (6) Metered dose inhaler. This course is taught by STAR Services' RNs. Participants complete a written test and demonstration of medication administration. This training is not a certification of the participant's competency by STAR Services. Assurance of the participant's skills and competencies is the responsibility of the employing company. Companies are required to ensure the staff's competence to administer medications to the specific people they support prior to administering medications. This course was designed to meet the 245D requirements for medication administration training.

Instructor: Lisa Dukuly

STAR Services is a training, education, staffing, consulting, and business development resource for social service agencies, individuals, families, social service professionals, schools, and government agencies. STAR Trainers have a combined experience of over 100 years of supporting individuals with various disabilities and mental health conditions in a variety of settings. Learn more at starsvcs.com.
