Title	Not included or not appropriate.	Included and appropriate.	N/A	N/A
Grade-band & Length of lesson	Not included or not appropriate.	Included and appropriate.	N/A	N/A
Materials	Not included or not appropriate.	Included and appropriate.	N/A	N/A
All Lesson resources, Links, & Citations	Not included or not appropriate. Does not follow APA formatting and/or writing convention.	Included and appropriate. All resources, data etc. are properly cited in APA format	N/A	N/A
Next Generation Science Standards (NGSS)	No standards included.	Standards listed do not include NGSS; or are completely misaligned.	NGSS standards may be listed but may not fit the lesson activities or full text may not be included. 3/3 pts Comment: The identified elements of Science and Engineering Practices, Disciplinary Core Ideas, and Crosscutting Concept must be included for a lesson.	NGSS standards are clearly defined, appropriate for lesson activities and full text of all standards is listed in the lesson.
Math or ELA Connections	Math/ELA connections are not included.	Math/ELA connections are attempted but lack clarity or appropriate detail. Comment: How are students developing this standard in the lesson. Clarity is needed.	Math/ELA connections are clearly aligned to science content for an interdisciplinary lesson.	Math/ELA connections are strongly developed in the lesson to create a well-learning experience.
Student Experience	Description of what students do during the lesson is missing or does not include	Description of what students do during the lesson includes minimal detail or is missing	Description of what students do during the lesson and/or the	Description of what students do during the lesson is well-developed. All components of

	supporting materials.	some supporting materials.	supporting materials are included. May require more detail. Missing support material 3/3 pts Comment: The link to the Google Form used in the Explore section of the lesson is missing	the lesson are included (Handouts, material lists, data sets, links, etc.)
Assessments	Assessments are not included.	Only the assessment descriptions are included. Or if actual assessments or descriptions are included, they are not appropriate for lesson.	Actual assessments are included but may be incomplete or not align completely to standards or objectives.	Includes formative (instructor regularly checks for alignment to lesson objectives) and summative assessments (i.e., grading rubric, quiz questions, etc.). Assessments align to objectives and standards.

Lesson Plan Rubric

Total possible points = 20

Your Score = 14/20

Notes: Kayla - this is an engaging lesson but missed a few technical components. Please see the feedback above.
