

**Are your students
the problem
solvers of the future?**

Endeavor **r**
STEM Teaching Certificate Project

Have you seen the data

**has accessible for your
students to explore?**

Time for skills

**Professional Development session
focused on the skills that will help our
student solve real problems**

NGSS aligned

**Real life data,
Deeper thought,
Science and Engineering
Practice skills,**

**These skills will allow your student
to better understand and
remember your class content
and**

**become the problem solvers our
society needs for the future.**

**Presented by Josh Kraus in
completion of the
STEM Leadership Master
Program through Endeavor and
Adams State University**
