I couldn't pick just one. I am equally excited about the Data Cube and curious about who is getting truly effective PD (besides Endeavor students, of course.)

1. Hey #TeacherTwitter , Desimone, 2011, and Darling-Hammond et.al. 2017 argue that effective PD should be 20 hours over the course of a semester. Has your school ever offered that? What did it look like?
2. The Data Cube from My NASA Data is like a cheat code for adding data literacy to your science, math, and social studies classes.
