------------	---

Online Problem-solving Notes

unsuccessful- One dot left

3

Three Glass Puzzle

This was my **3rd try, which was successful.**

The other two were getting a sense of how the game module worked and a failed attempt that I didn't keep track of...

1st move- Fill the 5oz glass from the 8oz

2nd- Fill the 3oz glass from the 5oz

3rd- Pour the contents of the full 3oz glass into the 8oz

4th- Pour the contents of the 5oz glass (i.e. 2oz) into the 3oz.

5th- Fill the 5oz glass from the 8oz (which contains 6 oz).

6th- Fill the 3oz glass from the full 5oz glass.

This leaves 4oz in both glasses
