

Table of Contents

Introduction

Lesson 1 – Spheres of the Earth	Intro-1
Lesson 2 – What is 3D?	Intro-13
Lesson 3 – Scientific Inquiry	Intro-21
Lesson 4 – Latitude & Longitude	Intro-43

Unit 1: Lithosphere

Lesson 1 – Dynamic Earth: Lithosphere	Litho-1
Lesson 2 – The Earth <i>is</i> All It’s Cracked Up to Be	Litho-5
Lesson 3 – Investigating Plate Tectonics	Litho-17
Lesson 4 – A Deeper Look at Plate Movement	Litho-41
Lesson 5 – The Rock Record: Searching for Volcanic Evidence	Litho-57
Lesson 6 – Local Exploration	Litho-71
Lesson 7 – Earthquakes	Litho-79
Lesson 8 – Earthquake Waves	Litho-93
Lesson 9 – Tsunami	Litho-105
Lesson 10 – Investigating Lava Flow	Litho-115
Lesson 11 – Mission: Stromboli	Litho-125
Lesson 12 – Mission: Fernandina	Litho-131
Lesson 13 – Mission: Eldfell	Litho-137
Lesson 14 – Comparing Volcano Types	Litho-143
Lesson 15 – Name That Volcano!	Litho-147
Lesson 16 – Scenario: [Part One, Days 1 & 2] Student Background Research into Kilauea and Mount Rainier	Litho-155
Lesson 17 – Scenario: [Part Two, Days 3 & 4] Student Group Exploration and Presentation: Living Near a Volcano	Litho-161
Lesson 18 – Scenario: [Part Three, Days 5 & 6] and Unit Review Conclusions ...	Litho-169

Unit 2: Hydrosphere

Lesson 1– The Blue Planet, Fresh and Salty	Hydro-1
Lesson 2 – Water ‘in’ the Earth	Hydro-17
Lesson 3 – From Mountains to Sea	Hydro-29
Lesson 4 – Frozen Water	Hydro-39
Lesson 5 – Ice Changes the Land	Hydro-57
Lesson 6 – Investigation: Modeling Streams	Hydro-71
Lesson 7 – Following the River	Hydro-83
Lesson 8 – Shaping the Land	Hydro-95
Lesson 9 – Building Land	Hydro-109
Lesson 10 – Under the Sea!	Hydro-117

Lesson 11 – Ocean Currents: Heat Transfer in the Ocean	Hydro-125
Lesson 12 – Global Ocean Circulation	Hydro-135
Lesson 13 – Energy and Erosion at the Coast	Hydro-145
Lesson 14 – Investigating Watersheds	Hydro-157

Unit 3: Biosphere

Lesson 1 – Alive?	Bio-1
Lesson 2 – Cells Support the Functions of Life	Bio-15
Lesson 3 – DNA & Body Structures: Evidence for the Tree of Life	Bio-27
Lesson 4 – Life in the Past: Fossils	Bio-37
Lesson 5 – The ‘Tree of Life’	Bio-49
Lesson 6 – Producers: Harnessing the Sun	Bio-61
Lesson 7 – Consumers and their Ecosystems	Bio-77
Lesson 8 – Biomes Quilt	Bio-89
Lesson 9 – Biomes and Productivity	Bio-97
Lesson 10 – Succession	Bio-109
Lesson 11 – Characteristics of Living Things: A Review	Bio-121
Lesson 12 – In the Field	Bio-129

Unit 4: Atmosphere

Lesson 1 – TORNADO!	Atmo-1
Lesson 2 – What is the Atmosphere?	Atmo-7
Lesson 3 – Pressure in the Atmosphere	Atmo-21
Lesson 4 – From the Sun to the Earth: The Electromagnetic Spectrum	Atmo-29
Lesson 5 – Energy Entering the Earth System	Atmo-41
Lesson 6 – Heat in the Troposphere: What Happens Just Above the Earth’s Surface?	Atmo-57
Lesson 7 – Seasons on Earth	Atmo-65
Lesson 8 – Highs, Lows and Wind	Atmo-79
Lesson 9 – Cloud Formation	Atmo-91
Lesson 10 – Fronts and Thunderstorms	Atmo-99
Lesson 11 – Predicting Thunderstorms	Atmo-111
Lesson 12 – The Dreaded Tornado	Atmo-121

Unit 5: Earth Systems

Lesson 1 – Earth’s Material Cycles –“The Cycles ”	Systems-1
Lesson 2 – Interactions Between the Cycles	Systems-19
Lesson 3 – Energy	Systems-27
Lesson 4 – Environmental Issues	Systems-51
Lesson 5 – Building a Sustainable School	Systems-63
