

EL ALFABETO HEBREO

Lección I

Practica de la Escritura Hebrea

Programa UTC "Online"

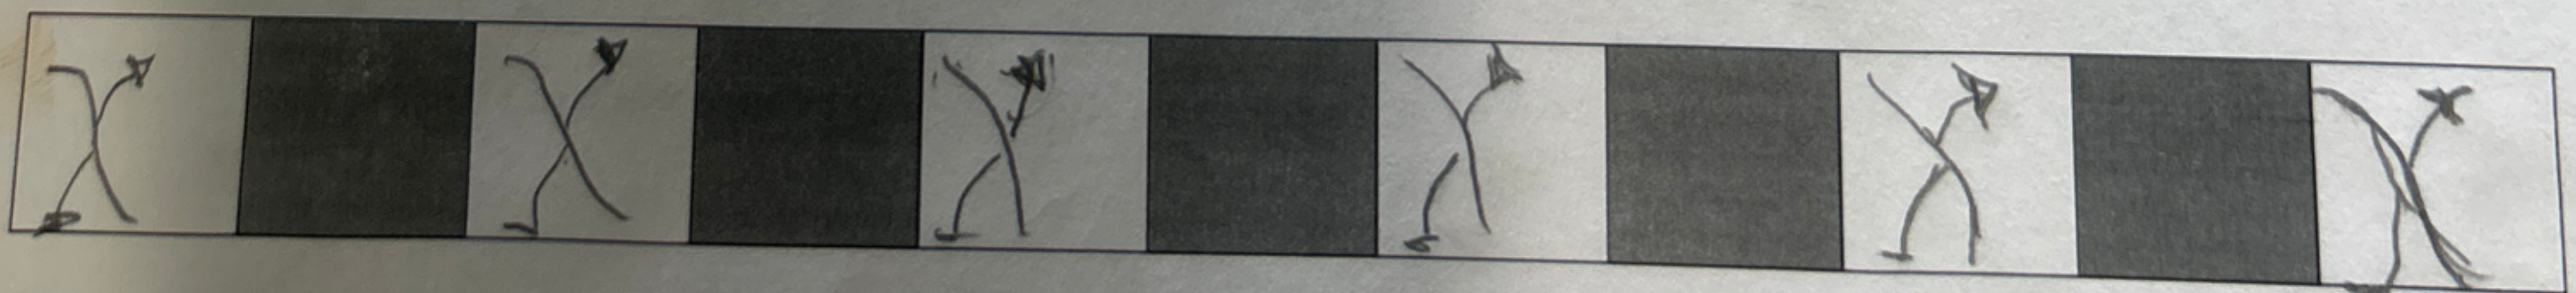

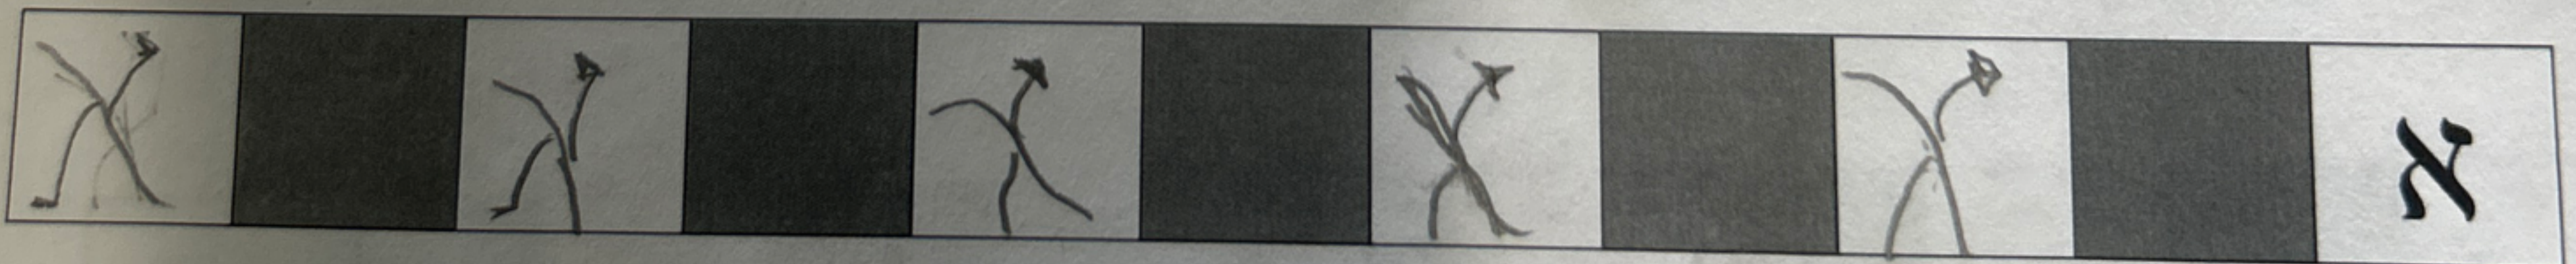

Nombre: Iselle A. Tavares Ramos

Valor: 60 pts.

El siguiente ejercicio tiene la intención de practicar la forma de cómo se escriben las consonantes del hebreo bíblico. Como nota, el hebreo bíblico no posee letras mayúsculas o minúsculas. Por el contrario, en su mayoría, las letras del alfabeto se escriben de la misma forma con la excepción de las formales finales. También, debes recordar que el hebreo se escribe de izquierda a derecha.

Escriba las siguientes letras en su forma clásica y cursiva en cada cuadrado. Favor de practicar las veces que sean necesarias veces.
