Harold was very disappointed last night. All the other students in his English class went to a party at their teacher's house, but Harold never got there. He followed his teacher's directions, but he made one little mistake.

From their school, he walked along Main Street to Central Avenue and turned left. He walked up Central Avenue two blocks to the bus stop at the corner, across from the post office. He took the Central Avenue bus and got off at Fifth Street. He turned left and walked along Fifth Street three blocks to Park Avenue and turned right. He walked up Park Avenue one block to the bus stop at the corner of Park Avenue and Sixth Street.

He took Bus Number 42, but he got off at the wrong stop. He got off at River Road instead of Rolling Road. He turned left and walked along River Road one block. He turned left again and walked two blocks, turned right, and got completely lost.

Harold was very upset. He really wanted to go to the party last night, and he can't believe he made such a stupid mistake!

Safe Driving

More than 3.5 million people get hurt in car accidents in the United States each year. Here are some things you can do so that you and your passengers are safe.

Always wear a seat belt. Also, make sure that all the passengers in your car wear their seat belts. Children under the age of five should ride in child safety seats that you attach to the back seat of the car. The center back seat is the safest.

Many accidents happen when cars are in bad condition. Take good care of your car. Check the brakes every week to be sure that you can stop the car when you need to. Keep the windshield clean so you can see the road ahead. Be sure the windshield wipers work in the rain.

Be a careful driver. Pay attention to traffic signs, road conditions, and other drivers. Look before you make a turn or change lanes on the highway. Don't "tailgate"—don't stay too close to the car in front of you. The driver might stop without warning. Be especially careful when the weather is bad. Slow down and use your headlights in the rain, snow, and fog. Pay attention to the speed limit. When

the speed limit is sixty miles an hour, that's the fastest you should drive. On the other hand, don't be a slow driver. Slow drivers can cause accidents.

You can't pay attention to the road when you're tired or busy doing too many things. Don't eat, drink, or talk on your cell phone while you're driving. Don't take any medicine that can make you sleepy before you drive. The label on such medicine usually has the warning "May cause drowsiness." Remember, other drivers are not always as careful as you are. Be prepared for their mistakes. If you are in an accident, the police will ask to see your papers. Always have your license, car registration, and insurance card with you to show to the police.
